PROFESSIONAL SUMMARY

Spatial Data Specialist with 1 year of experience at HERE Technologies, delivering end-to-end geospatial data pipelines - from automated web scraping and ETL transformation to spatial data validation and PostgreSQL storage. Proficient in Python, BeautifulSoup, Selenium, GIS tools, and spatial analysis. Proven track record of improving data accuracy, pipeline reliability, and operational efficiency in globally distributed teams.

TECHNICAL SKILLS

Languages: Python, JavaScript, MySQL

Data & GIS: Spatial Data Analysis, GIS Concepts, PostgreSQL, CAD, Pandas, NumPy, Matplotlib, Data Visualization, Excel

Automation: BeautifulSoup, Selenium, Web Scraping Pipelines

Miscellaneous: Data Validation, ETL Workflows, Map Data Quality, Global Team Collaboration

PROFESSIONAL EXPERIENCE

Spatial Data Specialist **Apr 2025 – Apr 2026**

HERE Technologies, Mumbai, India

- Engineered and maintained scalable web scraping pipelines using Python, BeautifulSoup, and Selenium to automate geospatial data collection from external map sources and third-party platforms.
- Built end-to-end ETL workflows to normalize inconsistent spatial formats, deduplicate overlapping records, and load clean datasets into PostgreSQL - improving pipeline reliability and downstream map accuracy.
- Performed spatial data analysis, validation, and correction to enhance map accuracy across large-scale datasets.
- Worked with geospatial datasets, GIS tools, and mapping platforms to maintain and improve data quality standards.
- Collaborated with global cross-functional teams to deliver timely and accurate data updates at scale.

Engineering Intern **Jul 2021**

Sai Tronics, Mumbai, India

- Implemented cost-effective solutions reducing project expenses by 20%.
- Streamlined operational workflows improving team efficiency by 25%.
